

Notes from the 19th June DIG Meeting

Adobe Presentation

We had a very full house for this meeting.

Mike Hender gave an excellent update on developments in the Adobe world with several successful demonstrations.

Certainly the modest £8 per month subscription for Creative Cloud represents very good value when you see the benefit of continual upgrades without needing to buy the next full version. He also gave us a useful overview of their full range of products and their interrelationships.

Mike's presentation can be found at

<https://www.dropbox.com/s/1819I7qbtzug5v/2015-06-19%20Dig-Img-Adobe.pdf?dl=0>

Mike ran out of time to demonstrate "Slate" so go to

<https://slate.adobe.com/a/BxYgq>

see what it can do for new U3A members.

Woolwich Slideshow

We looked at the results from the recent Photo Walk around Woolwich and Greenwich which David Pearson had kindly assembled into a slideshow. This illustrated the different photographic styles that emerged from our brief expedition.

The slideshow can be accessed from

<https://www.dropbox.com/s/icb36fsz23zadol/Project1.exe?dl=0>

You may need to sign in to Dropbox to download the file.

Other collections of images from the day taken by Tony and Guru can be found at

Photo Group Future Discussion.

Allan Ferrier led a very useful and positive discussion about the future of the two photographic groups following Brian Dunn's retirement after many years enthusiastic convenoring. This will be taken forward at the next Photographic Group meeting and we will report back the outcome in due course.

Themed Topic

Somewhat inevitably we ran out of time for this so please bring back your contributions next month.

Next month we have intriguing look at **3D Photography** by Ken Burnett so do not adjust you screens.
