

# Some tips on Photobooks

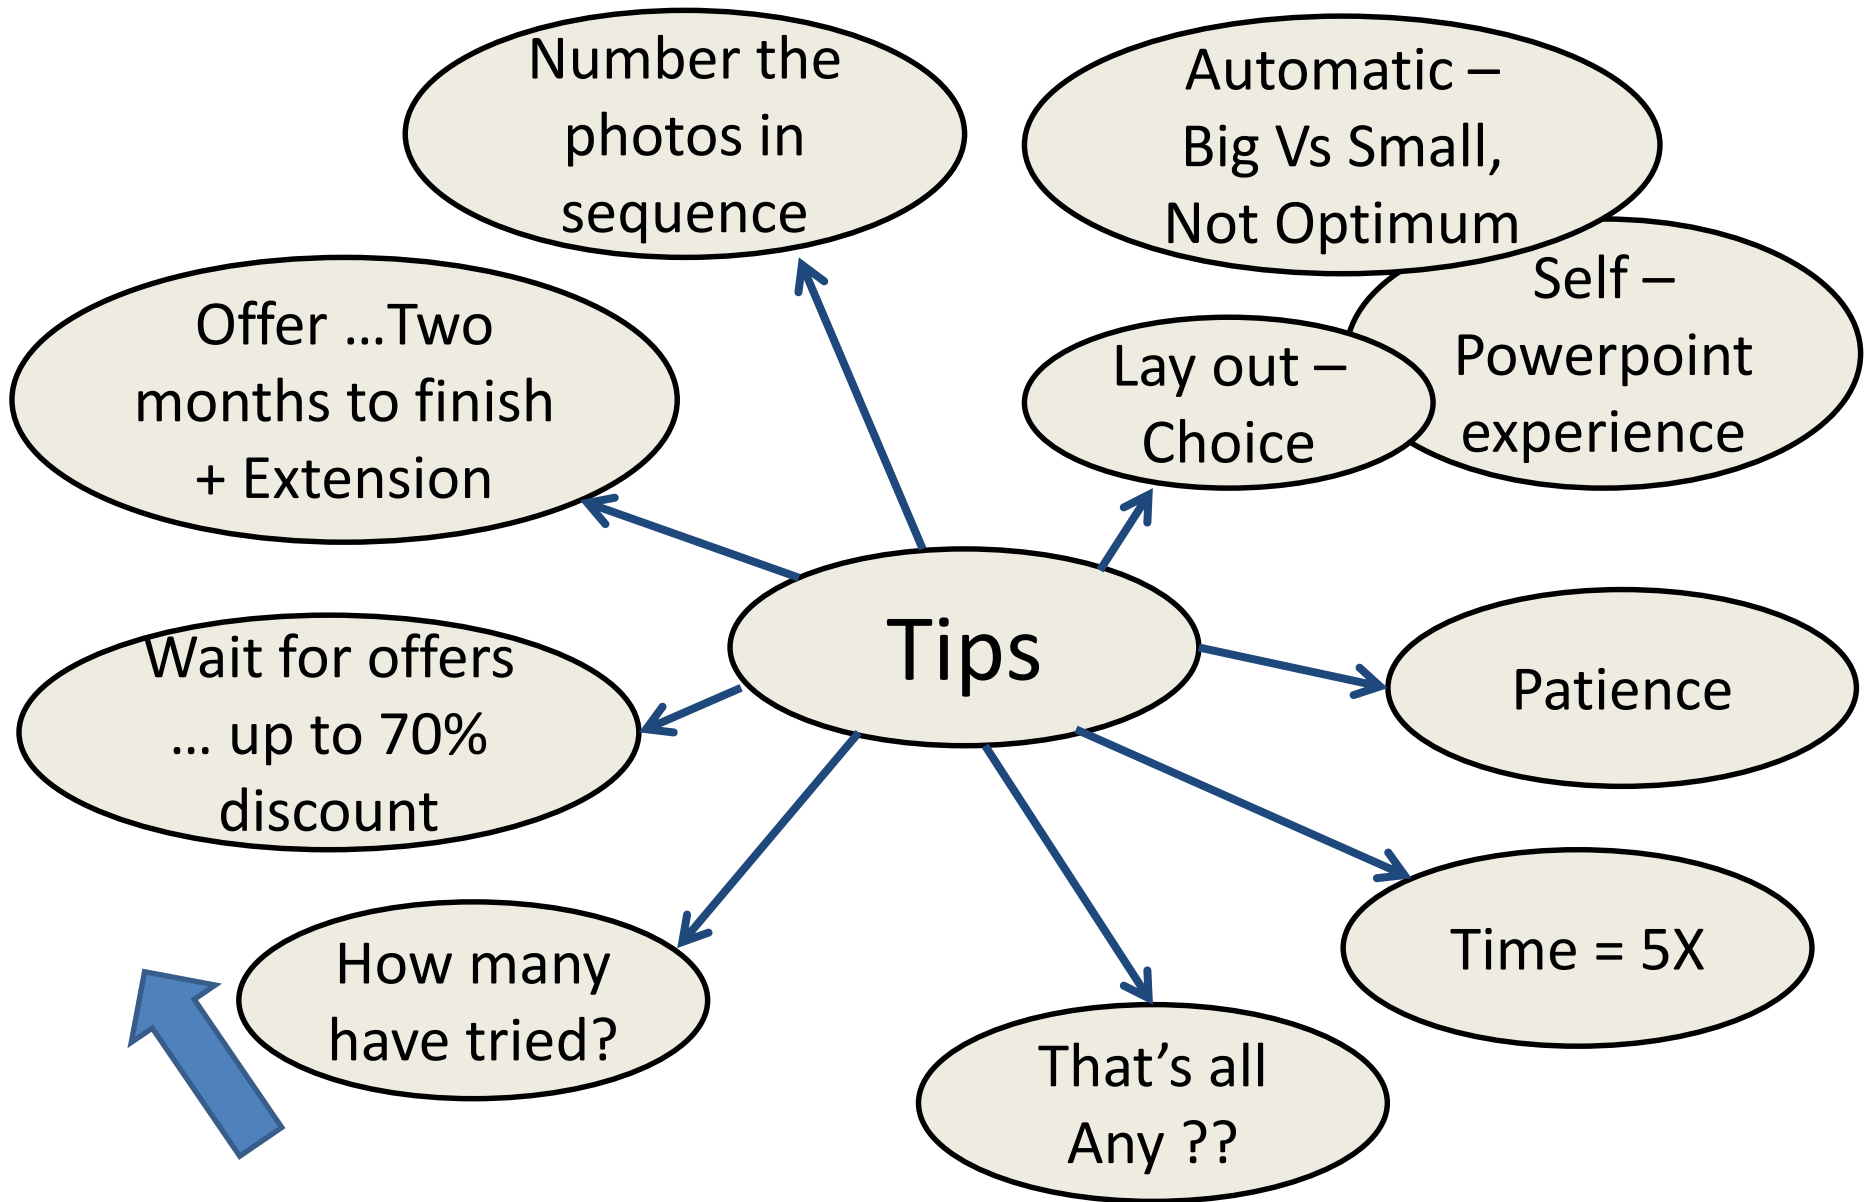

<https://www.photobox.co.uk/>

- Show Sample Albums - Rome, Hebrides, Year Books
- 100 A4 pages (170gsm) , normal cost > £100.
- Select photos, and number them in order.  
(Faststone is very convenient for this)
- My photos usually average around 3 Mb each.
- Total disregard for picture format ..what looks good on screen
- ~ 200 photos in 100 pages

- Average 2 per page,  
just one in some and up to 4 in others
- Choice of background colours .. I like 'Black'.
- Other embellishments and borders
- Captions ... optional.
- Keep a running average as you progress.  
To avoid squashing in the end,  
design some of the last few pages early.  
[A good beginning and a good end.....]

# Demo

- An electronic Album
- Selection of photos using Faststone  
[Rome: 8 days, nearly 1500 photos. So 1 in 6 or 7 of the photos. Total selected 230]
- Trial Uploading
- Album Design. Choice of:
  - Automatic Layouts / watch out for cropping effect and inappropriate choice of big vs small
  - Manual : Better control, more flexible but time consuming

Number the photos in sequence

Automatic – Big Vs Small, Not Optimum

Self – Powerpoint experience

Lay out – Choice

Patience

Time = 5X

That's all Any ??
